

**01/17/2020 Webmasters report.**

Update on the transfer of our domain to Godaddy so that we may be involved with the AA meeting guide app.

I apologize for the delay.

I spoke with a representative from go daddy and clarified the pricing.

The basic rate for hosting with WordPress and security installed is \$240 a year, this also includes the domain, they have a promotion right now if paid in advance it would be \$215 for one year, \$167 a year for 2 years, and as low as \$155 a year for 3 years or more. To take advantage of the discount multiple years would have to be paid in advance.

3 years would be \$465 plus incidentals such as domain transfer (probably around \$10).

Of course, we could lock in the price for however many years we can afford just keep adding \$155 per year. (4 years \$620, 5 years \$775, etc.)

It would revert to \$240 a year after that (if there isn't a price increase), there aren't any discounts for renewals generally.

We are paying \$66 a year right now.

The last information I presented only had the stated pricing for the first year at \$168, had we gone with that our price would have gone up to \$240 the next year.

So that's it.

Tim C.
